

Software Withdrawal: IBM AIX V4.3 — Replacements Available

Overview

Effective June 30, 2003, IBM will withdraw from marketing the programs listed in the **Program Withdrawals** section and licensed under the IBM International Program License Agreement (IPLA).

On or after the effective date of withdrawal, you can no longer order these products directly from IBM or an IBM Authorized Distributor.

Programs and Feature Withdrawals

- All programs and features from the AIX® V4.3 System Program Order (5692-AIX)
- Charge features from the IBM Software Subscription for AIX (5692-SSO)
- Programs and supply features from the AIX V5.1 System Program Order (5692-A5L)
- Supply features from the maintenance programs

Replacement Product Information: Orders for the withdrawn programs, which must be received at least three days before the effective date of withdrawal, will be handled as follows:

- Existing orders will be filled if the calculated arrival is scheduled between March 25, 2003, and June 30, 2003.
- New orders placed after March 25, 2003, but before June 30, 2003, will be filled if the customer-requested arrival date is between March 25, 2003, and June 30, 2003.
- Orders placed on or after June 30, 2003, will not be filled.

For details about replacement programs, refer to the **Replacement Programs** section.

This announcement is provided for your information only. For additional information, contact your IBM representative, call 800-IBM-4YOU, or visit the IBM home page at: <http://www.ibm.com>.

Program Withdrawals

Programs Withdrawn and Associated Features

| Description | Program Number | Version | Release and Features |
|--|----------------|---------|----------------------|
| AIX System Program Order (SPO) ¹ | 5692-AIX | All | All |
| AIXlink/X.25 | 5696-926 | 1 | All |
| AIX | 5765-C34 | 4 | All |
| RS/6000® Operating Environment for CATIA LoadLeveler® for: | 5765-E52 | 2 | All |
| AIX | 5765-D61 | 2 | All |
| GPFS | 5765-B95 | 1 | All |

¹ After June 30, 2003, software products that ship media under the AIX V4.3 SPO (5692-AIX) can no longer obtain media shipments for those products. If these software products are also available on AIX V5, then media can be obtained for these products after upgrading to AIX V5.

Services Withdrawals

Installation support, field support, direct customer support, and program services for AIX V4.3 will be withdrawn on December 31, 2003.

For AIX V4.3, a limited fee-based extension providing installation support, field support, direct customer support, and program services will be made available beginning January 1, 2004, and ending no sooner than December 31, 2004.

Supply Withdrawn Features

| Description | Program Number | Version/Release | Supply Feature |

AIX V4.3 has been replaced by AIX 5L V5.1 and V5.2. For detailed information, refer to Software Announcements 201-090, dated April 17, 2001, and 202-270, dated October 8, 2002.

AIX V4.3 Bonus Pack has been replaced by AIX 5L V5 Expansion Pack and Bonus Pack.

AIX 5L V5 represents the next generation of AIX. Fortified with open technologies from some of the world's top providers, AIX 5L builds on a solid heritage of supplying integrated, enterprise-class support for RS/6000 and IBM @server pSeries™ systems. With AIX 5L, IBM:

- Provides an industrial-strength UNIX® operating system with increased levels of integration, flexibility, and performance for meeting the high demands of today's mission-critical e-business applications
- Offers an advanced operating system with a strong affinity with Linux and built-in capabilities designed to accommodate future IBM POWER-based servers.

Note: There is no replacement for the following program:

- RS/6000 Operating Environment for CATIA V2.3 (5765-E52)

Support Information

Technical Support: The question submission function under IBMLink™ Ask Questions — Support for these programs will be withdrawn by December 31, 2003.
